Process And Objectives

Zenix User processes and objectives

Clay Gomera

Project Context

This document outlines the main processes and user objectives for the software project. It serves as a guide to understand the functionalities and the goals users aim to achieve within the system.

Processes and Objectives

1. User Registration and Authentication

User Objectives:

- **Register new account**: Users can create a new account by providing necessary information.

- **Verify email**: Users must confirm their email address to activate their account.

- **Log in**: Users can access their account using their credentials.

- **Reset password**: Users can recover access by resetting their password if forgotten.

- **Enable two-factor authentication**: Users can add an extra layer of security to their account.

- **Log out**: Users can securely sign out of their account.

2. Profile Management

User Objectives:

- **Create profile**: Users can set up their profile with personal details.

- **Update profile**: Users can modify their personal information and preferences.

- **View profiles**: Users can view the profiles of other members.

3. Content Creation and Interaction

User Objectives:

- **Create posts**: Users can publish new content on their feed.

- **Upload multimedia**: Users can add photos or videos to their posts.

- **Comment on posts**: Users can leave comments on other users' posts.

- **Like or favorite posts**: Users can express appreciation for posts by liking or favoriting them.

- **Share posts**: Users can share posts with others.

4. Messaging

User Objectives:

- **Send private messages**: Users can communicate privately with other users.

- **Join group chats**: Users can participate in group discussions.

- **Create group chats**: Users can initiate new group chat rooms.

- **Manage notifications**: Users can control their notifications for messages and interactions.

5. Search

User Objectives:

- **Search by hashtags**: Users can find content by using specific hashtags.

- **Search posts, users, keywords**: Users can search for posts, other users, or keywords.

- **View trending topics**: Users can see popular topics and posts.

6. Management

User Objectives:

- **Manage user accounts**: Administrators can create, delete, and manage user accounts.

- **Moderate content**: Administrators can review and manage the content posted by users.

- **Handle moderation reports**: Administrators can handle reports of inappropriate content.

- **Configure system settings**: Administrators can set and adjust system settings and policies.
